

SportsConcept Parent/Guardian Letter - Monitoring Your skater for Symptoms Acknowledgement

Name of skater

During the COVID-19 pandemic, it is essential that we all play our part to prevent the spread of the virus. Public Health has established strict guidance for illness, reporting an absence and self-isolation periods in order to maintain healthy learning environments for all.

As parent/guardian, we require you to:

1. Monitor your child DAILY for COVID symptoms.
2. Complete the Ontario COVID-19 Self-Assessment (Daily Self-Assessment) BEFORE coming to skating each day.
3. Contact SportsConcept if your child has any COVID-19 symptoms.

Daily Student Self-Assessment

Parent(s)/Guardian(s) MUST perform a DAILY screening of their child(ren) for signs and symptoms of COVID-19 BEFORE coming to skating lessons.

Please indicate your acknowledgement to the statements below by checking on the box for each statement.

- I will take my child(ren)'s temperature to check for fever (higher than 37.8 degrees Celsius).
- I will monitor my child(ren) for signs and symptoms (including atypical symptoms) of COVID-19.
- I will complete the Ontario COVID-19 Self-Assessment ([link here](#)) for my child.
- If my child(ren) has signs or symptoms, I must keep my child(ren) home, along with other household members, and contact Sports Concept

Please indicate your acknowledgement to the statements below by clicking on the box for each statement.

I will keep my child(ren) at home.

- I will have my child(ren) self-isolate (household members must also self-isolate) as per the Halton Region COVID-19 Class Order.
- I will follow guidance to have my child(ren) tested for COVID-19.
- I will keep my child(ren) home from all activities until test results are received.

Testing:

- If my child's test results are positive for COVID-19, Halton Region Public Health will notify the parent/guardian. A student with a confirmed case must have clearance from Public Health to return to all activities.
- If my child's COVID-19 test results are negative, my child may return to activities after being symptom-free for 24 hours.
- If my child has COVID-19 symptoms and COVID testing is not done, then my child must remain home to self-isolate for 14 days AND be symptom-free for 24 hours prior to returning to activities. Alternatively, my primary health care provider may provide documentation to confirm the illness is not COVID-19 and my child can return to activities.
